## **RECOMMENDATION LETTER**

### **TO WHOM IT MAY CONCERN**

I'm most pleased to write this letter in support of **Ashley Olebogeng Makgetho's** application for enrollment at your reputable university. I have known her since September 2019 till date as her supervisor.

She has been able to collaboratively work with her colleagues and independently. Additionally, she is one of the respectful and honest international students I have had the privilege of working with. Currently her research direction entails Machine learning and ensuring data privacy.

Her ability to work with complex algorithms for her thesis showed that she's a hard worker and determined to excel. I confidently recommend her for the chosen program at your university. Please feel free to contact me for more information.

Yours Sincerely

Dr. Huang Qiming

Associate Professor,

school of Computer and Communication Engineering,

University of Science and Technology Beijing
